Goff's Original Curtain Wall packages are constructed using NFPA-701 Flame Retardant materials, including 14 oz. reinforced upper and lower sections and a 20 mil. PVC clear center windowed section. All seams are double lock stitched using mildew / rot resistant thread, all edges are completely finished. Side edges feature two 1' hook & loop fasteners per side for easy attachment to walls or other curtains. The bottom edge contains a fully enclosed chain weighted lower hem and brass grommets. Grommets along the top are 1' on center. Original Goff's Curtain Wall packages listed above also include a 16 gauge channel track system with dual wheeled carrier roller hooks 1' on center along the top of the curtain, end mount wall brackets and universal mounting hardware for easy installation.
